PROJECTS

ADRI CAMAROTTO - PORTFOLIO – https://adricamarottoportfolio.netlify.app/
https://github.com/Adriana-Camarotto/Adriana-Camarotto-Portfolio-React

- **Summary:** this is my personal portfolio that showcases my skills, projects, and achievements to potential employers. It allows them to know my creativity, problem-solving abilities, and technical proficiency.
- **Role:** Front End Web Developer and Designer
- **Tolls:** HTML, CSS, JavaScript, API, Bootstrap, FontAwesome, React.

ODYSSEY – https://lovely-torrone-a23b28.netlify.app/
https://github.com/Adriana-Camarotto/odyssey-travel-companion
- **Summary:** The Odyssey Travel Companion app provides current details on attractions, events, and more for tourists to make informed choices. Users can access detailed descriptions and photos via search.
- **Role:** Front End Web Developer
- **Tolls:** HTML, CSS, JavaScript, API, Bootstrap, FontAwesome, React.

WEEKEND FUNTIMES – https://abuttle2.github.io/weekend-funtimes/
https://github.com/Adriana-Camarotto/weekend-funtimes
- **Summary:** The Weekend Funtimes app helps users plan events based on weather forecast: camping for good weather or movie binging for bad weather. It uses weather and movie APIs to select camping spots and filter movie options based on ratings.
- **Role:** Front End Web Developer
- **Tolls:** HTML, CSS, JavaScript, API, Bootstrap, FontAwesome.
